

Nordic Radio Symposium 2004

including Finnish Wireless Communications Workshop 2004

CALL FOR PAPERS

General Information

The Nordic Radio Symposium (NRS) 2004, including the Finnish Wireless Communications Workshop (FWCW) 2004, will be held in Oulu, Finland, from **16 August** through **18 August 2004**. (www.cwc.oulu.fi/nrs04/)

A tutorial will be organised on **16 August**.

The combined NRS'04 & FWCW'04 will provide a forum for exchange of information on the latest advances in the broad field of radio science and communications. The programme will include contributed and invited presentations.

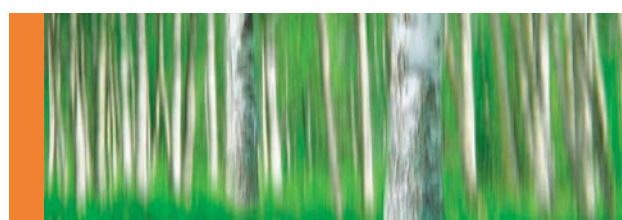

NRS'04 & FWCW'04 is jointly organised and sponsored by the Nordic Radio Society, IEEE Finland Section, and the Centre for Wireless Communications, University of Oulu.

Symposium Topics

Prospective authors are invited to submit original high-quality papers by **31 March 2004**. The symposium will highlight the following topics, although contributions from other topics on radio science and communications are also welcome:

- Antenna Systems
- Channel Measurement and Modelling
- Broadband Wireless Access
- Modulation, Channel Coding and Detection
- Multiple Access Techniques
- Radio Resource Management
- Receiver Techniques
- Space-Time Signal Processing
- Transceiver Architectures, Testbeds and Field Trials
- Ultra Wideband Radio
- Routing
- Wireless Networks
- Ad Hoc and Sensor Networks
- Protocols and Architectures
- Security and Privacy
- Integration and Interworking of Wired and Wireless Systems
- QoS in Wireless Networks
- Middleware Support
- Wireless Applications
